Desalination Institute DME Hybrid - Seminar (Online & Present):

Introduction to Water Desalination

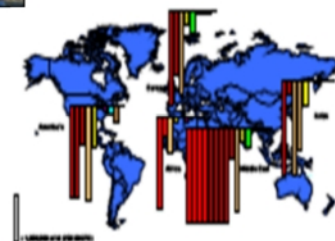

Technology - Markets - Environment

Technology

Costs & Markets

Environment

**09. February 2021
Duisburg**

Seminar Information

Seminar

From 2021

Desalination Institute DME

offers the Seminar

**„Introduction to Water Desalination,
Technology - Markets - Environment“**
as a Hybrid - Seminar.

In the framework of selected speeches internationally recognised experts will present an overview on the most relevant desalination technologies and their application. Furthermore they will present markets, potentials and trends in research and development.

Who is the seminar suitable for?

This Seminar addresses mainly representatives of politics, business and science, who want to acquire elementary technical and economical information about this important and rapidly growing branch.
